TDD: 317/232-7560  
<http://www.workforce.IN.gov>  
An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for June is 5.0 percent, one percentage point below the national rate of 6.0 percent, Craig E. Hartzer, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during June 2002 was 3,001,600.

Indiana's June unemployment rate was lower than Illinois, 6.6 percent; Michigan, 6.7 percent; Ohio at 5.8 percent; and Kentucky, 5.3 percent.

"Indiana saw a slight increase in its June unemployment rate due to a decline in the service sector and in retail trade," commented Hartzer.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,904,800, a decrease of 44,800 from one year ago and 21,400 less than last month. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 624,200 in June, a decrease of 22,700 from last year. Motor vehicle manufacturing accounts for 92,600 jobs, 200 less than one year ago. Manufacturing of motor vehicle parts totals 60,700. Industrial machinery manufacturing in June accounts for 63,300 Hoosier jobs, 400 less than May.

Construction employment totals 150,600 an increase of 7,000 from last month. Of that, heavy construction reports 19,600 jobs, an increase of 1,000 from last year.

Service producing employment totals 2,123,000 in June, 17,800 less than last year. Transportation and public utilities total 143,000, 900 more than May.

Retail trade totals 550,500, 10,000 less than a year ago. Of that, general merchandise stores report employment of 78,100, or 2,900 less than last year. Service sector employment, such as business services, computer and data processing, totals 755,400 in June, which is 1,700 less than the previous year.

(over)

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,158,500 in June 2002. An estimated 3,001,600 Hoosiers are employed and 156,900 are unemployed.

Indiana's labor force for June 2001 totaled 3,134,900. Hoosiers employed one year ago is estimated at 3,004,500, and June 2001 unemployed in Indiana totaled 130,400. Indiana's estimated unemployment rate one year ago was 4.2 percent, compared with the national unemployment rate of 4.7 percent in June 2001.\*

## Industry Payroll Employment

Selected Categories	June 2002	Change from May 2002	Change from June 2001
Goods Producing	781,800	+10,400	-27,000
• Construction	150,600	+7,000	-4,600
• Manufacturing	624,200	+3,400	-22,700
Service Producing	2,123,000	-31,800	-17,800
• Retail Trade	550,500	-1,200	-10,000

\*Due to an expansion in the Current Population Survey (CPS), mandated by Congress, estimates for June 2001 (revised) and later at both the state and substate levels may not be fully comparable with those of earlier periods. In analyzing data, be aware that over-the-year comparisons, may differ slightly from comparisons that would have been made using data without the sample expansion. More detailed information can be found at <http://stats.bls.gov/launews1.htm>.
